About us: Walk HK has been offering outings since 2003.

Jackie grew up in rural New Zealand and developed a love of the outdoors and travelling. Her previous careers were in nursing and photography, but roaming the hills of the NT with her beloved spaniel, Fergus, convinced her that there's nothing quite like putting one foot in front of the other. Jackie runs our photography tours.

Marco is Swiss, and has lived in HK since 1982. Having retired from a successful career in banking, he now prefers to share his profound knowledge on Hong Kong's lifestyle, culture, history and heritage with visitors coming to Hong Kong. Marco has a passion for the outdoors, and often competes in mountain marathons and long distance races.

In addition Jackie and Marco are supported by other experienced guides.
